BATTLESHIP MAINE, Before and After the "Finding."

BY PHILIP BULGER.

The Maine, the Maine, the gallant Maine,
The white fleet's famous sister;
If she had been on open sea
No Spaniard could resist her.
But now she lies in filthy mud
In that foul Cuban water,
If Spanish malice mired her there
We will show them no quarter.

She lay at ease on tranquil seas,
No storm in which to flounder,
With stars and stripes on every mast
No guards were placed around her.
No deck was cleared, no war was had,
In peace her crew did slumber,
When suddenly, as from the sea,
Like a sound of near thunder,
Then a blast of great violence came
Which tore the Maine asunder.

If we find it was treachery
Which o'ertook the gallant Maine,
We will bid good-bye to Kansas
And wipe from the map old Spain;
With a warning thus to Europe
Where Uncle Sam shall order,
We'll have no fear of accident
Like this in Havana's harbor.

I'll continue this donation
To the honor of the Maine,
For the court that held inquiry
Has reflected on old Spain—
Showed the cause to be external
In the breaking of her spine,
And was the fatal circumstance
Of her sinking in the brine.

We'll now revenge that broken hull
So foully torn asunder,
And sinking with that valiant crew
That lie in silent slumber.
For this she'll lose the Philippines,
Also the Isle of Cuba,
And if we meet her haughty fleet
She'll lose that great armada.

For the "hundred gates" we'll open
And from each ten thousand call,
Then we be to the foreign foe
Upon whom those legions fall:
The one that's called "Sunflower" state
In this greatest of all walls,
Can send her thrice ten thousand men
Whenever the bugle calls.

Our fathers made that famous march
"From Atlanta to the sea,"
And we may be as noted yet
As the boys with Grant and Lee;
To a region in the tropics
In a time of mud and rain,
From the land of sunny Kansas,
Going to avenge the Maine.

With the Stars and Stripes our standard
Let its bearer be as bold
As the one where Caesar landed
In the bravest days of old;
Be as valiant as that bearer,
Who'd fear not the hordes of Spain,
For you're greater than a Roman
And can well revenge the Maine.

For the Boys of Cherokee County.

God bless our noble boys
Wherever they may be
Who are gone to the front
From the county Cherokee:
Gone to do their duty,
Our honor to sustain;
Gone to make the Spaniard
"Remember the Maine."
Some are gone to Cuba
To stop the bloody scenes
And some are gone to Dewey
To hold the Philippines.

—Philip Bulger.

Mr. John Peterson, of Patoutville, La., was very agreeably surprised not long ago. For eighteen months he had been troubled with dysentery and had tried three of the best doctors in New Orleans, besides half a dozen or more patent medicines, but received very little relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy, having been recommended to him, he gave it a trial and to his great surprise, three doses of that remedy effected a permanent cure. Mr. Wm. McNamara, a well known merchant of the same place, is well acquainted with Mr. Peterson and attests to the truth of this statement. This remedy is for sale by W. E. Price.

The very best of ice cream will be served at Mrs. Meyerding's Sunday and every Sunday thereafter. 'Twill be fine, too.

L. F. Farley conducts a large mercantile business at Liberty Hill, Ga. He says: "One application of Chamberlain's Pain Balm relieved me of a severe pain in my back. I think it O. K." For lame back, rheumatism, neuralgia, swellings, sprains, bruises, burns and scalds no other liniment can approach Chamberlain's Pain Balm. It is intended especially for these diseases and is famous for its cures. For sale by W. E. Price.

W. H. Corse of Kansas City visited friends in this city this week. Will is an old and trusted employee of the Hudson-Kimberly Publishing Company, having been proof reader for several years. Will isn't very tall and for that reason can't go to war unless it be as a drummer, and he says he don't want to beat his way through.

Dr. C. S. Morton, formerly a physician in good standing at Columbus, died at Fort Scott, Kansas, last night of starvation. He had not eaten a meal or slept in a bed, in weeks. He was too proud to tell his condition, and when finally taken to the hospital, was too far gone to recuperate. Thousands of doctors in the country are starving, but refuse to acknowledge it. In spite of this fact, thousands of young men are studying to be doctors. The legal profession is crowded still worse. There never was a more generous country than this, yet men are starving to death because they insist on being lawyers or doctors.—Atchison Globe.

Rev. Irl R. Hicks says of the month of May: "From about the 1st to the 7th look for a warm wave, low barometer, and numerous storms of rain, wind and thunder. Cool fresh weather will set in behind the storms, lasting two or three days. A storm period is central on the 12th, hence it will turn warmer about that date, and during the 12th to 15th a very low barometer, and storms of rain, wind and thunder, will pass eastwardly over the country. Very cool nights with possible frost in the north, will attend the high barometer which comes behind the storms. Reactionary changes in falling barometer warmer, and more storms are due about 18th to 20th. Raising barometer and cooler, westerly winds will always divide a period of disturbance from another, except in cases where numerous causes combine to bring on 'hurricane' spells of stormy weather. A storm period runs from about the 23rd to 25th. On the next to these dates there will be a return to warmer weather, low barometer and storms. The 29th to 31st are also reactionary storm days. The solar energy during May will produce tornadoes in various sections. Watch the clouds."
